Accessories

Secure tank emptying for natural gas (CNG)

Gas torch for burning off natural gas – specially designed for emptying tanks of CNG vehicles.

When emptying the gas tanks of CNG vehicles, it is necessary to remove or burn off the fuel in a designated safe area specifically structured for this task.

Accessories and equipment:

- Torch with burner pipe, 560 mm long
- Telescopic stand max. useful height up to 2,5 m
- Isolation ball valve
- Gas withdrawal fuse and flame arrestor
- Natural gas pressure regulator, $p_e = 220$ bar, $p_a = 3-4$ bar
- Natural gas hose, $l = 10$ m, DN 20, PN 16 (Connecting line from the existing natural gas pressure regulator to torch)
- Natural gas high pressure hose, $l = 0,5$ m, PN 300, DN 8 as a connection from the gas tank to the pressure regulator
- Cartridge burner with piezo ignition
- Leak detection spray frost proof 400 ml
- Gloves

Your benefits:

- Safe burning of CNG
- Easy to use
- Compact

TECHNICAL DETAILS

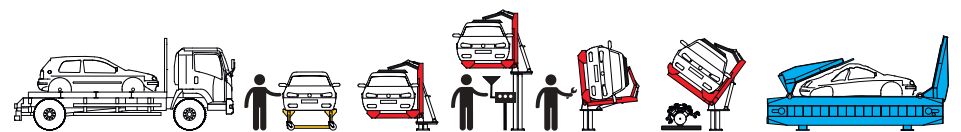

Connections: 6 mm + 8 mm
Power: 480 KW/h (36 l/h)
