

World leader in vehicle  
de-pollution technology

## SEDA Rapid

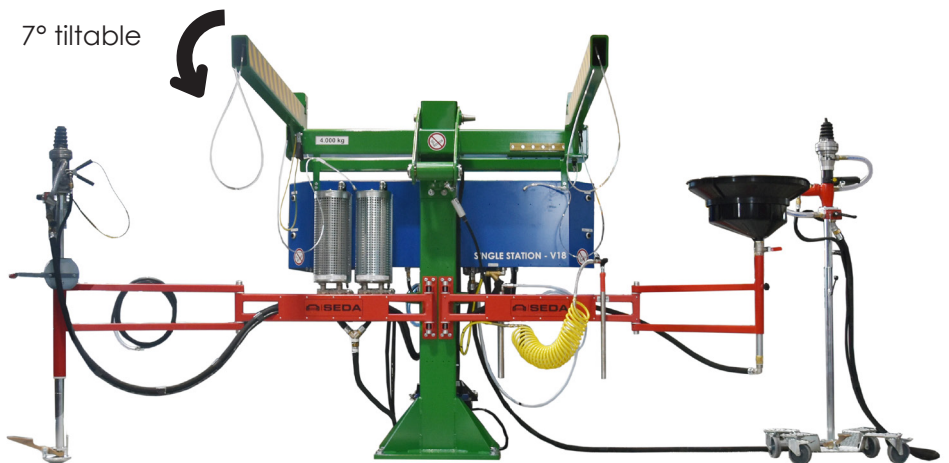

A-51025-V19

### ELV Drainage System

Simple control functions

The SEDA Rapid is a complete system that meets all the requirements of modern end-of-life vehicle depollution.

### + Your benefits:

- High safety standard
- All operating fluids
- Easy maintenance
- Mobile or static
- 7° tiltable vehicle carrier with a load capacity of 3.5 tonne
- Explosion proof ATEX certificated

The **SEDA Rapid** maximizes efficiency by removing numerous fork lift movements, with one simple lift onto the vehicle tilting ramp. This high volume station comes with the mobile heavy duty tank drilling machine, complete with quality control units for both Petrol and Diesel recovery. Combined with double funnel swingarm and complete with waste oil and coolant lances. Brake fluid hoses and connections are incorporated also within the lower section

### SEDA-Umwelttechnik GmbH

Schwendter Str. 10 / 6345 Kössen / Tirol / Österreich  
UID-Nr.: ATU56621622 / FB-Nr.: FN 231790 v / FB-Gericht: Innsbruck  
Certified company according to DIN EN ISO 9001

## SEDA Rapid

A-51025-V19

### ELV Drainage System

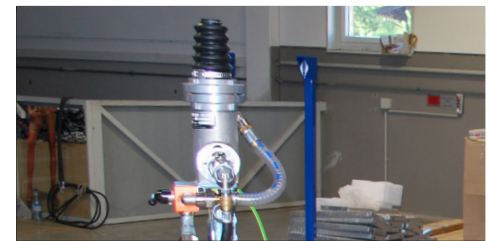

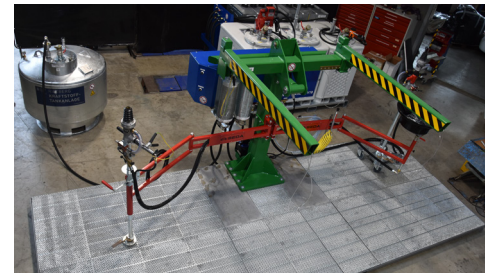

Rapid on a platform

Rapid with catchment area

SEDA Rapid base units are:

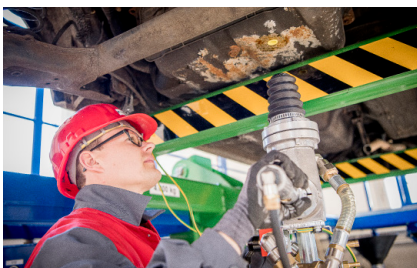

- SEDA Tank Drilling Machine
- SEDA closing plugs
- Hydraulic tilting vehicle ramp
- SEDA brake fluid pliers
- Robust Swing arms
- Strong pumps for all fluids
- Optional catchment area
- Optional platform

Inline filter system

The **SEDA Rapid** is a high volume system, making light work of the vehicle depollution process.

Heavy Duty Tank Drilling Machine

#### TECHNICAL DETAILS

**Air requirements:** 8,5 bar – 1.350 l/min  
**Load capacity:** 4 tonnes  
**Fluids:** Diesel/Petrol  
 Waste oil  
 Brake fluid  
 Coolant  
 Washer fluid  
**Required space:** 6,0 x 3,4 x 4,3 metre

#### ORDER INFORMATION

**A-51025-V19** SEDA Rapid ELV drainage system  
**A-51142** SEDA Rapid ELV drainage system on platform  
**A-51145** SEDA Rapid ELV drainage system with drip pans
