

World leader in vehicle
de-pollution technology

SEDA TL-1 600 / 1800

N-527511-H / N-527512-H

Dismantling tilting lift (Underfloor installation)

Easy access to the car bottom

Your benefits:

- For easy and ergonomic working on car bottom
- Underfloor installation
- Steplessly variable 90° rotation
- Available with lifting height 600 or 1800 mm
- Also available without lifting feature as a ramp
- Hydraulic control system
- Rugged and robust

The SEDA TiltingLift TL-1 1800 is a under-floor-TiltingRamp with a special lifting feature. This system moves the car, not the worker

It is easy to place a car with a forklift on the system. Than a hydraulic safety arm fixes the vehicle. The fixing arm can be adapted by various optional plug-in devices for all popular car models.

Afterwards the car is ready to turn 90° in order to help a worker to stand upright and work on the car bottom easily.

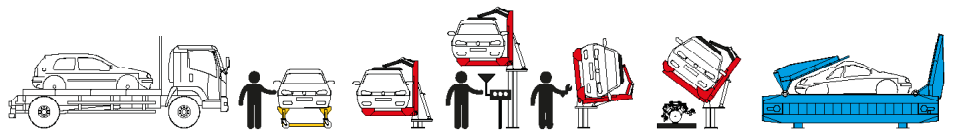

Furthermore it is possible to lift the car up to 1800 mm.

This unit offers a safe and efficient dismantling of ELVs.
