USE

▶ Battery Less Jump Starter

This Battery Less Jump Starter designed for 12V vehicles, can re-boost a battery in less than 2 mins as it contains Ultra capacitors instead of lithium battery which is more versatile.

They don't require pre-charging. Instead of internal batteries, they have internal capacitors that draw power from a weak battery until they accumulate enough energy to start the engine.

▶ Features & Benefits

- ◆ LCD Display
- ◆ Ultra capacitor technology Jump Starter
- ◆ Battery Less - No internal battery required
- ◆ Super safe
- ◆ Cold resistant to safely recharge/re-boost an almost run-out battery of a vehicle
- ◆ Long Life Cycle - It Can Be Used 10000 times Without Diminishing Performance

▶ Technical Specification

Parameters	Unit	Data
Charging Voltage	V	12
Starting Current	A	300
Peak Current	A	600
Recharge Time	sec	80 (approx.)
Dimension	mm	167 x 47 x 106
Unit Weight	kg	0.8 (approx.)

▶ HighLights

- ◆ Fault indication display
- ◆ Display of "READY" message for Jump Start
- ◆ Always operational, even after years of storage
- ◆ Greatly reduces risk of fire or explosion hazards
- ◆ Excellent performance even operate in a harsh environment as low as -40C°
